REASONS FOR ALLOWANCE

1. Claims 1-26 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The applicant's arguments filed on 10/9/2007 are persuasive. **The feature of independent claim 1** directed towards allowable subject matter is a temperature sensor system disposed directly onboard on a backplane of a silicon die of a LCD microdisplay device immediately next to a liquid crystal material for directly measuring a temperature of said microdisplay device and generating a temperature measurement signal. **The feature of independent claim 14** directed towards allowable subject matter is a thermal control and management system having a voltage database for receiving and processing a microdisplay temperature measurement signal for said LCD system by employing said voltage database to generate a temperature-dependent reference voltage for inputting to multiplexer of a microdisplay controller for controlling a high and a low voltages of a common electrode connected to a plurality of pixel cells switchable for DC balancing of said LCD display system. **The feature of independent claim 20** directed towards allowable subject matter is a inputting said temperature-dependent reference voltages into a multiplexer of a microdisplay DC-balancing controller for controlling voltages of common electrodes connected to a plurality of pixel cells of said microdisplay system in response to said temperature measurement signal for DC balancing said LCD system. **Lippman et al and others teach** a like device having a temperature control, but fails to teach of the above claimed features that distinguish between the configuration and location. **Therefore** the above said features in combination with the other limitations of the above independent claims 1, 14, and 20, and therefore claims 1-26, are found to be allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
